VISION

A diverse, inclusive, and caring community.

MISSION

Advocate for diversity, equity and inclusion in government, civic and cultural life so that everyone in our community is represented and heard. We seek to provide opportunities for learning and growing together.

CDG Statement Against Hate and Discrimination

Despite much progress, we continue to witness the degradation of compassion and civility throughout our region and the country.

Our hearts go out to those impacted by the ongoing tragedy of the Israel– Hamas war. We also acknowledge the increase in hateful speech and violence in the U.S. targeting people who identify as Arab, Jewish, Muslim, Palestinian and other groups.

The CommUNITY Diversity Group of La Grange Area (CDG) denounces hate and violence and rejects all forms of discrimination and prejudice. Since 1992, CDG has been advocating for diversity, equity and inclusion in government, civic and cultural life so that everyone in our community is represented and heard.

CDG supports the efforts of individuals and organizations working to promote peaceful resolutions to conflict. We encourage engagement and open civil discourse to strengthen our community and invite you to join us. Please visit the [CDG website](#) to get involved.
